

Figure 1. Nectar sugar concentration (%) of 18 sites for six varieties. The y-axis represents Nectar Sugar Conc. (%) and the x-axis represents Site. The legend identifies the varieties: 01.HyClass930 (dark blue), 05.WC.34.5 (purple), 46W94 (pink), 930/955 Winfield Hyclass (red), Edimax (orange), and InVigor.L233.PL (yellow). The plot shows the distribution of nectar sugar concentration for each site, with outliers indicated by dots.
