Growing New City Neighbors in 2021

1. We may no longer be able to use the 4th Reformed location past 2021.
2. We are in the final stages of purchasing a new property that would become our offices, and would be the new location for our farm program and other programming.
3. We are exploring a partnership with Grand Valley University to be able to grow on their educational farm.
4. African Keyhole Pizza Garden for elementary and middle school youth led and taught by high school youth.
5. Dreaming of a new super club for high school youth.
6. Dreaming of building a commercial kitchen in the new location.
