### REPORT ON THE EXAMINATION OF PHYSICAL SAMPLES

**Testing Request:** Honey Bee Quantitative

**Laboratory Case #:** 22-0212

**Report Date:** April 6, 2022

#### Description of Submitted Samples:

<u>Item</u>	<u>Description</u>
1	One (1) glass jar labeled B containing adult bees
2	One (1) glass jar labeled C containing adult bees
3	One (1) glass jar labeled H containing adult bees
4	One (1) glass jar labeled I containing adult bees
5	One (1) glass jar labeled K2 containing adult bees
6	One (1) glass jar labeled L containing adult bees
7	One (1) glass jar labeled L2 containing adult bees
8	One (1) glass jar labeled O containing adult bees
9	One (1) glass jar labeled P containing adult bees
10	One (1) glass jar labeled PT1 containing adult bees
11	One (1) glass jar labeled Q containing adult bees
12	One (1) glass jar labeled T1 containing adult bees
13	One (1) glass jar labeled T2 containing adult bees
14	One (1) glass jar labeled T4 containing adult bees
15	One (1) glass jar labeled V containing adult bees
16	One (1) glass jar labeled 17A containing adult bees

#### Results/Interpretations/Opinions:

The †Honey Bee Quantitative Pathogen Panel was performed on the samples, as received, from Items 1 through 16. The results are reported in †total target copies/sample and can be viewed on Page 2 of this report.
