

PRODUCTION COSTS FOR ORGANIC HAZELNUTS

You are invited to participate in this 3-year WSARE funded project that aims to support Oregon producers with determining their production costs for organic hazelnuts.

Project Overview

Work with Oregon Tilth's Farm Viability Specialist Tanya Murray and a cohort of Oregon organic hazelnut growers to develop a practical approach for determining your own farm's production costs and learn to use the cost information for business decision making.

Participation Requirements

- Attend Sept 8th 2021 kick off meeting*
- Attend approximately 4 cohort meetings per year
- Provide input into the development of the costing approach
- Pilot the costing approach on your farm: collect on-farm data and complete cost analysis
- Provide updates and feedback to project coordinator
- Share key takeaways at OOHG Summer Nut Tours and Nut Grower Society Annual Winter Meeting

*The Sept 8th meeting will be held via Zoom and will place from 5pm-6:30pm. An alternative meeting time will be arranged if needed.

An honorarium of \$1,000 - \$1600 will be provided to producers that participate in the full project.
