

QMPS Selective Treatment Protocol "Trial"

To put a clinical sample into the computer:

1. Locate "Enter" in DairyComp Menu
2. Select "QMPS" from "Enter" menu
3. Choose type of sample (most will be "Clinical Cow")
4. Put in cow number
5. Put in cow severity (1=milk abnormal, 2=milk and udder abnormal, 3=sick cow)
6. Put in cow quarter

SAMPLE PICKUP IS FRIDAY-TUESDAY. NO PICKUP ON WEDS AND THURS.

To print out sheet for Courier please do prior to courier pickup (before 7am):

1. Locate "Enter" in DairyComp Menu
2. Select "QMPS" from "Enter" menu
3. Select "Print list for QMPS"
4. Might need to hit ESC (Escape a few times)
5. Print
6. Print by 7am

Once results are returned, enter mastitis events for all cows using MAST command and selecting the "no treatment protocol" or preferred treatment protocol based on pathogen diagnosis.
