

# Properly Implementing Agronomy Research and Demo Trials Outdoor In-Service

**2020**  
Eastern  
Oklahoma  
Agronomy  
Series

\*Due to the ongoing COVID-19 situation, we will be meeting outside and following CDC guidelines for social distancing.

**Part I** - We will discuss when to use research vs demos, identifying topics of relevance, identifying stakeholders, sourcing funding for your trials, marketing and promotion, and ultimately I will be illustrating the proper equipment and techniques for the application of fertility and herbicide treatments. I will also be handing out fertilizer treatments for use in a district-wide thrust program for E. OK.

**Perkins - 8am-Noon on July 20<sup>th</sup>**  
**Haskell - 8am-Noon on July 22<sup>nd</sup>**  
**Lane - 8am-Noon on July 24<sup>th</sup>**

**Part II** – This session will reconvene at the same plot locations approximately 30 days later. We will focus on proper and accurate sampling methods, sample preparation and processing, data recording, spreadsheet preparation and photography.

**Perkins - 8am-Noon on August 24<sup>th</sup>**  
**Haskell - 8am-Noon on August 26<sup>th</sup>**  
**Lane - 8am-Noon on August 28<sup>th</sup>**

**Part III** – (Via Zoom) Statistical analysis of data, the initial steps of “building your talking points”, methods of information distribution, recognizing cooperators and wrap-up or ramp-up of the trial.

**September 29<sup>th</sup>, 2020 – Zoom TBA**

Please bring your face mask, lawn chair and clipboard to Parts I & II.
