

Survey For Grape Stakeholders – 2023
Western Region Sustainable Agriculture Research and Education Program
Outreach Survey for: “Growing Grapes in Subtropical Hawaii Using
Organic Practices”

Gerry Herbert and Nancy Redfeather invite you to take our Western SARE Research and Education Survey about our program “Growing Table Grapes in Subtropical Hawaii Using Organic Practices”

Gerry and I are interested to know if our table grape education and outreach program was an effective and engaging way to share our ongoing grape research. This Survey is for our Stakeholders who receive our regular blogs, you-tube videos, photos, instagram, and grape resources page on our website. Mahalo for your feedback.

Research and Education Survey: Answer section that applies to you.

I. For All Growers:

Please fill in all fields with a red *

1. Did our table grape educational outreach materials improve your awareness of growing grapes in Hawaii?
2. Did the materials provide new knowledge?
3. Did the materials provide new skills to try*
4. How many people did you share the materials with?

II. For Market Producers – in 2023 are you likely to use some aspect of this project to;

1. Adapt one or more of the practices shared?
2. Increase your farm’s diversity?
3. Reduce off-farm inputs?
4. Create any value-added products for your farm?

III. For Professional Educators – in 2023 are you likely to use some aspect of this project?

1. In an education program that I plan to participate in.

2. As a resource I will make available to producers
3. Professional development for my peers

Thank you for taking our Survey.

Mahalo, Gerry Herbert and Nancy Redfeather
