

Hands On Grafting session with Saint Louis Beekeepers

Monday evening, July 25th, 7 p.m.

Studies have found there are benefits to locally-raised queen stock, including

- worker population levels
- overwintering success
- honey production
- queen lifespan
- overall colony lifespan greater in locally-adapted colonies

Join us and learn grafting basics along with a hands-on demonstration and practice session in a classroom setting at Isabee's, 761 Gravois Road on Monday, July 25th, 7 p.m.

You are receiving this invitation as a member of Saint Louis Beekeepers. If you would like to participate, please send at email to contact@saintlouisbeekeepers.com or call Isabee's at 314-894-8737 to reserve. Seating is limited.
