

Dear Fellow Agents:

I hope this letter finds you all well. I am writing to ask for your help. We have just completed a SSARE Producer Grant:

[FS21-335](#) Development of AI for Yak Semen and the Potential Economic Benefits to Southern Region Yak, Small Acreage Farmers and Beef Producers

We are asking you if you would please help us get the word out about this yak research website to farmers and producers in our region by including the following notice in your communications to farmers and producers in your service area.

**Looking for Information on Yaks? What could they bring to the economics of my farming operation? Husbandry questions? Is AI possible? Can you cross yak with beef cattle and what would you get?**

**Check out <https://www.skayresearchgroup.com/> developed under a SSARE Producer Grant to provide information for small acreage farmers, beef producers and yak breeders.**

Thank you for sharing the Yak Research website through your social media accounts, county newsletters, and county websites. If you have any questions or would like to ask more about the project, please don't hesitate to reach out.

Sincerely,

Mary McCarty  
CEA for ANR/4-H Menifee County
