

Seven Questions You Need to Answer to Write a WSARE Grant

1. *What agricultural problem do you have? Are there other people who have a similar problem?*

2. *What is your plan or possible solution to solving the problem?*

3. *What are the skills, knowledge, tools, and materials you already have to implement this plan/solution?*

4. *What are the skills, knowledge, tools, and materials still needed that you hope the grant/project will provide to implement this plan?*

5. *How much will this cost and how long will this plan/project take to put into action?*

6. *How do you intend to teach/show other farmers this answer to the problem?*

7. *Which people and/or organizations are willing and able to help you put your plan into action? What do each of these people/organizations contribute?*
