Surface Cover:
undefined

Production:

Pasture: 47 lbs/acre
Notes: 4.8 sqft (x20): 247 lbs/ac, 513 lbs/ac 1.2 sqft (x80): 1216 lbs/ac

General Notes:

Grazed areas have greater than 100 cowpies within view shed, many of which are broken by hoof action.
Forage estimates in production notes taken from ungrazed north side of temporary fence. Compare with PP-02 residual estimates.

Management Notes or Recommendations:

Photo point along temporary fence line. Heavy utilization of cheatgrass on south side of fence.
