

OSU Oregon Olive Growers Needs Assessment and Survey: Preliminary Results

PRELIMINARY RESULTS NOT FOR DISTRIBUTION

Research Objective: Obtain grower production and orchard management data to determine the current condition of the Oregon olive industry and identify research and extension needs for producers.

- Respondents from 5 counties across Oregon
 - 70% from Yamhill/Marion/Polk counties
- Range of acreage represented, from <1 acre, to almost 15 acres
- 41 cultivars grown
 - Top cultivars include Arbequina, Frantoio, Leccino, Pendolino
