pretty slick

Very impressive in terms of maintaining functionality with reduced labor.

9/28/2015 2:04 PM

It worked well in a variety of tasks that could help small farmers with vegetable production.

9/8/2015 10:10 PM

This equipment is a nice fit for smaller growers that don't have a lot of spare change like most growers.

9/4/2015 5:55 PM

Interesting. I'm not sure if it would work well on non-flat ground.

9/3/2015 3:44 PM

Very promising

Q7

Do you have any suggestions for improvements or applications for the furrow guidance machine?

Answered: 10 Skipped: 2

Means to lift guidance while still seated to speed turn arounds. Foot operated start/stop motion so hands are free.

10/1/2015 10:41 AM
