

Table 4: Average available nutrients at a non-grazed treatment field site. Nutrients are quantified in micrograms per cm² per month for each treatment (spray/no-spray). Green columns represent nutrients that were statistically different between treatments. Nutrients were more available in the sprayed than the non-sprayed treatment.

Treatment	NO3	NH4	Ca	Mg	K	P	Fe	Mn
No-spray	44.70	3.76	851.40	71.95	245.52	14.48	1.85	1.63
Spray	111.76	4.74	1042.68	96.10	343.08	22.69	2.48	4.35

Treatment	Cu	Zn	B	S	Pb	Al	Cd
No-spray	0.22	1.65	0.39	6.22	0.02	7.42	0.03
Spray	0.32	2.44	0.39	11.59	0.09	7.87	0.02
