

Table 5. Bahiagrass tissue N across four Florida locations and three years.

Fertilizer management	Tissue N <sup>2</sup> (%)
Complete mineral	1.38 <i>b</i>
Class AA biosolids + KCl	1.33 <i>bc</i>
Minus P	1.36 <i>b</i>
Minus K	1.53 <i>a</i>
Minus N	1.24 <i>c</i>
Check (no fertilization)	1.27 <i>bc</i>

<sup>2</sup>Data represent least square means  $\pm$  standard error (n=36). Means sharing the same letter are not significantly different at alpha = 0.05.
