Table 5: This table shows when major bee genera were present in the blueberry plots (Hepzibah, Georgia) during 2022-2023 seasons. Blueberry bushes typically flower (bloom) in late March to Early April in Central Georgia. Most bee genera had representative species that were present and could have assisted in the pollination of the blueberry flowers.

Genera	March	April	Мау	June	July	August	September
Agapostemon		XXX	XXX	XXX	XXX	XXX	XXX
Andrena	XXX	XXX	XXX	XXX	XXX	XXX	XXX
Apis		XXX	XXX	XXX	XXX		
Augochlora			XXX	XXX	XXX	XXX	XXX
Bombus	XXX	XXX	XXX	XXX	XXX		
Habropoda	XXX	XXX	XXX	XXX	XXX		
Halictus	XXX	XXX	XXX	XXX	XXX		
Lasioglossum	XXX	XXX	XXX	XXX	XXX	XXX	XXX
Megachile			XXX	XXX	XXX	XXX	XXX
Melissodes	XXX	XXX	XXX				
Osmia	XXX	XXX	XXX				
Хуlосора	XXX	XXX	XXX	XXX	XXX
