

Table 6. Bahiagrass tissue P across four Florida locations and three years.

Fertilizer management	Tissue P ^z (%)
Complete mineral	0.26 <i>bc</i>
Class AA biosolids + KCl	0.29 <i>ab</i>
Minus P	0.17 <i>d</i>
Minus K	0.32 <i>a</i>
Minus N	0.27 <i>b</i>
Check (no fertilization)	0.23 <i>c</i>

^zData represent least square means \pm standard error (n=36). Means sharing the same letter are not significantly different at alpha = 0.05.
