Brassica cover crops & biofumigation

Join WSU Clark County Extension at the 78th St. Heritage Farm for the first in a series of demos and discussion events focused on cover crops and soil health topics.

This event is focused on using brassica cover crops, with a specific focus on their use for biofumigation. Justin O'Dea, WSU's Extension Regional Agriculture Specialist for southwest WA will be the speaker for this event.

PROGRAM FEATURES:

- Why and when to consider (or avoid!) using a brassica cover crop & considerations for successful brassica cover crop management
- Using brassica cover crops for biofumigation & considerations for managing a successful brassica cover crop for biofumigation
- How to facilitate biofumigation in the field
- Potential of and limitations of biofumigation- what we know so far
- Demonstration plot and equipment viewing
- Time for open discussion on cover crops & soil health with other attendees and the speaker
- Opportunity for networking
- Refreshments and snacks

FOR MORE INFORMATION:
