Professionals – Please describe how you are likely to use some aspect of this project for an educational purpose?

I am building a farm-to-kitchen school that will offer cooking classes as well as classes on homesteading, gardening and more. I plan to teach seed saving classes in the community, hopefully in partnership with the Delta County Library system which has an excellent seed library. I will use the information gained from the Seed School Teacher Training to design and implement my seed saving classes and hopefully create a local network of committed seed savers.
