Paired *t* test results

P value and statistical significance:
 The two-tailed P value equals 0.1256
 By conventional criteria, this difference is considered to be not statistically significant.

Confidence interval:
 The mean of ZEOLITES potato, Aggregate minus CONTROL potato, Aggregate equals -1.6550
 95% confidence interval of this difference: From -3.9057 to 0.5957

Intermediate values used in calculations:
 $t = 1.7388$
 $df = 7$
 standard error of difference = 0.952

Learn more:
 GraphPad's web site includes portions of the manual for GraphPad Prism that can help you learn statistics. First, review the meaning of [P values](#) and [confidence intervals](#). Then learn how to interpret results from an [unpaired](#) or [paired](#) *t* test. These links include GraphPad's popular *analysis checklists*.

Review your data:

Group	ZEOLITES potato, Aggregate	CONTROL potato, Aggregate
Mean	6.9663	8.6213
SD	1.5078	3.2705
SEM	0.5331	1.1563
N	8	8
