(1-no knowledge, 5-expert knowledge) [making hive spits and nurs]	In a few sentences please describe your expectations for the intenship. You can refer to what you hope to be your overall experience, and/or your expectation for content, instruction, take home, etc.
Deidra Matthews	yourseil:	yoursen!	somewhat		none	new member of community garden	yes	less than 1/4 acre	agriculture)	1	[Diodiversity]	poliinators)	1	polytiesiiij	equipment)	1	capturing)	1	10 age and	1	1	I want to gain an appreciation for the beekeeping culture/community. Acquire a basic knowledge of safety, handling, agriculture and health benefits of bees and beekeeping.
brierra Mack	1		2 yes	somewhat	none	I have plants in my yard, but don't actively tend to them	maybe	1/4-1/2 acre	2	2 1	3	2	1	1	1	1	1	1	2	2 1	1	My overall goal is become competent in beekeeping and sustainable agriculture to be able to cultivate honey and produce honey related products for personal, community, and commercial use. Also to aid in sustaining the bee population in our area
Georgia Brown	1		lyes	no	Limited exposure as a child helping my bee- keeping grandfather.	Balcony container garden. vegetable, herb, and/or flower garden,	Working on buying a house precisely for that purpose.	1/4-1/2 acre	2	2 2	2	2	1	1	1	1	1	1	1	1	1	I want to learn more about sustainable gardening to promote pollinators, learn to keep bees, and move into a house so that I may practice both and teach these skills to my grandson. I hope to learn how to have and care for my own bees in
Jeffrey Stanley	1) yes	yes	been around hives/bee through family, friends or neighbors	I'm happy to talk about it. I have an active vegetable, herb, and/or flower garden I plant flower and	yes	1/4-1/2 acre	4	3	3	2	2	1	1	1	1	1	3	3 1	1	my own yard, and maybe expand from there. I hope to learn how to responsibly and sustainably create an environment on my land to steward bees and other pollinators. Hopefully I will amass enough experience and knowledge to help others learn this skill. My expectation is to be offered a crash course on bee biology as well as caretaking strategies. After this, I expect my education to mostly take place experientially through observation and practice. I am really looking forward to the program!
Kenny Williams	1	3	somewhat	no	none	other plants for landscaping purposes	yes	apartment, condo, or other	2	2 2	2	2	2	1	2	2 1	1	1	1	1	1	
Kendall King	1	2	2 yes	no	none	I plant flower and other plants for landscaping purposes, I have an active vegetable, herb, and/or flower garden	yes	less than 1/4 acre	3	3 2	3	2	1	1	1	1	1	1	1	1	1	I am looking forward to learning as much as I can about bees. I hope to develop friendships with others who have a similar interest. I expect to pursue this further upon completion of the internship.
